RATINGS

Opinions

Passat

9-3

Pros

Strong engines, fine handling and ride balance, roomy and upscale cabin, top-notch build and materials quality, available all-wheel drive.

Handles well for a front-drive car, frugal yet powerful engines, generous passenger room, class-leading trunk space in sedan models, excellent crash test scores.

Cons

More expensive than competitors, excessive road noise.

Suspension should be stiffer on Aero models, ride can be choppy over bumps, interiors lack upscale look and feel, turbo lag on V6 models.
